Datasheet ValkAce+ - Slate roof hook

Technical specifications ValkAce+

- Standard profile lengths ideal for panels 1134 mm wide.
- ValkGrip suitable for panel heights of 30 and 35 mm.
- Space between panels 14 mm.

Key benefits ValkAce+

- Direct, slip-resistant panel fixation in a single movement using the ValkGrip module clamp.
- Enables safer and more ergonomic working without leaning over the panel.
- One universal clamp for both mid and side positions, ensuring a clean and consistent finish.
- Super-fast installation due to easy clip-on panel clamps and slide-in coupling and only one required tool (T30).
- Robust and future-proof system with a minimal number of components logistics.
- Automatic electrical connection of metal parts and panels.
- Clip-on cable management and earth terminal.

Calculations

Projects using the ValkAce+ - Slimline (adjustable) roof hook can be calculated easily and according to regionally applicable standards using the [ValkPVplannerPro](#).
